Her Money Was Gone!

An old woman who lived alone had kept nearly $2,000 00 in currency around her house for years. She was afraid of banks.

Last fall she became seriously ill, and——

No, she didn't die But when she went to look for the cash it was gone! Fortunately some honest friends had found it while she was unconscious and had deposited it to her credit in a bank.

This woman has now decided that after all the bank is the safest place, and, besides, her money is not idle any longer. It is now earning 4 per cent for its owner.

Let us put your money to work for you.

DEVELOPING A MARKET FOR OUR PRODUCTS

Business expansion is by no means haphazard. It entails study and research. That our country may win in the race for world trade the Department of Commerce keeps its agents abroad to search business opportunities. The details of their work are brought out in the seventh of a series of folders on Our Government which we are distributing each month. The complete series gives a highly interesting and instructive account of Our Government and its advantages to you.

Send your name and address and we shall mail you the stories issued previously and each pamphlet published in the future—one every month.

Hear Patrick Henry's famous speech in the Pageant Drama

IN a gigantic amphitheatre out in the open, seating 22,000 people—on a stage 150 feet wide—with a cast of 2000, the Pageant Drama of the VIRGINIA HISTORICAL PAGEANT is the most graphic and the most complete visualization of Virginia's history that has ever been or ever will be presented.

This sketch gives a vague idea of the bigness of the amphitheatre on Westbrook Avenue opposite the entrance to Bryan Park—where the Pageant Drama will be presented. It is built on a 40 acre plot of ground. Seats are prepared for 22,000 people. Traffic can be easily handled—as there should be no congestion and no discomfort.

WHEN you press a switch button to turn on the light, you may not think of the men stoking the furnaces at the power plant, understand the wires and dynamos that form the background of electric lighting service, or appreciate the great investment needed to supply you with electric current.

So also, when you turn for counsel and help to the funeral director in your time of need, you may not stop to think of the scientific training, the technical skill, the modern equipment and the extensive facilities that form the background of his service.

Yet beyond your vision he serves you in scores of unobtrusive ways—many of which scarcely anyone but he could name—for no other one person ever has contact with all of them.

He does not expect that you will look behind the results to see how they were achieved, but that the results themselves will constitute a beautiful and perfect tribute, the memory of which will be a solace and comfort.
